Like you, our greatest concern is the well being of your pet. A physical examination will be performed before sedating your pet. However, many conditions, including disorders of the kidneys, liver, heart & blood cannot be detected without blood lab screening. For this reason, we highly recommend pre-operative screening before sedating your pet. Please check the appropriate options below. These items are in ADDITION to the cost of surgery:

Surgical Elective (OPTIONAL) Procedures

All surgical patients receive an antibiotic/ anti-inflammatory injection upon recovery.

- Pre-Surgical Blood Work – \$47.67

OWNER RELEASE

You are to use all reasonable precautions against injury, escape, or death of my pet. I understand that anesthesia and surgery always involves some risk to my pet (such as unknown internal physical abnormalities, medication allergies, surgical complications, internal bleeding, shock, incision dehiscence, and post-surgical infections): and agree to hold you harmless in the absence of gross negligence, in connection with these procedures. I acknowledge that no guarantee or assurance has been made to me as to the results that may be obtained. In the event complications arise and I cannot be immediately contacted at the below list phone number, you are directed to make the decision you deem best for my pet. I agree to pay for services rendered. **I have read the foregoing, understand what it says, and agree.**
